EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rona A. Nardone on 1/14/2010 and 2/10/2010.

The application has been amended as follows:

In the claims:

Cancel claims 56 and 57.

Amend claim 59 as follows:

59. (Withdrawn - Currently amended) The solution of claim [14]1, wherein the organic solvent has an average molecular weight of about 1500 daltons or less.

Claims 41, 42, 58-60, 64 and 65, directed to the process of use of the composition are rejoined with the allowable composition claims.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The incorporation of the organic solvents from claim 15 into claim 1 overcomes the rejection under 35 USC 112, 1st.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Rejoinder of Claims

3. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 41 and 42, 58-60, 64 and 65 directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 36-40, have been canceled and have NOT been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I and III as set forth in the Office action mailed on 7/02/07 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
